SLEEP, TAILORED TO YOU

At Harrington & Abbott, we believe your sleep deserves the best. That's why every mattress in the collection is handcrafted using natural, healthy materials like British wool, home-grown hemp, and flax linen - designed to give you the most comfortable and restful night's sleep. Each detail has been thoughtfully chosen, from Yorkshire farm-grown comfort fillings to award-winning spring technology and fabrics woven in the UK. It's this dedication to quality that makes these beds truly different.

ld of Innovation

nique – it's the combination of many innovations working in harmony.

Comfort

Coils of springs providing
comfort.

The finest farm-grown fillings

Featuring farm-grown hemp and flax
grown in Yorkshire, alongside traceable
British Wool and other responsibly sourced
luxury fillings.

Luxury woven mattress fabric

The mattresses feature a luxury fabric with a high
wool content that means no FR chemical treatments
are required.

NATURALLY LUXURIOUS COMFORT

Wool was an easy choice - soft, springy, breathable and naturally fire retardant. It helps regulate temperature year-round, keeping you comfortable in every season. The mattresses use only the finest British wool in hand-blended fillings and woven fabrics, so there's no need for added FR chemicals.

MOHAIR

Softer and smoother than wool, its fine silky texture gives it a more luxurious feel. Mohair shares the beneficial properties of wool but with added sumptuousness.

CASHMERE

Known for its supreme softness, cashmere is warm and lustrous but highly resilient.

BRITISH WOOL

Soft, springy and naturally supportive, wool keeps you warm and dry, helping to regulate body temperature. It's also antibacterial and inherently fire-retardant so there's no need to use FR chemicals in any of the filling pads. British wool is from British Wool's Traceable Wool scheme.

YORKSHIRE WOOL

With all the same properties of British wool, Yorkshire wool is sourced from local farms.

BRITISH WHITE WOOL

From the distinctive British White sheep, prized for their creamy white fleeces and gentle nature, this wool is soft yet durable, with a fine crimp for natural loft and spring. Its breathable fibres regulate temperature, keeping you cool in summer and warm in winter.

MORE NATURAL FILLINGS MEAN A MORE LUXURIOUS FEEL

When it comes to your comfort, you can't have too much of a good thing.
For us, that means using the finest natural fillings and materials.

We use hemp and flax grown in Yorkshire, and carefully source other fillings that are fully traceable and ethically sourced, ensuring the highest standards of quality. These fibres are blended to deliver exceptional comfort and luxury.

HEMP

Hemp is known for its durability, breathability and antimicrobial properties, making it an excellent filling. It naturally repels bacteria, mould and allergens, promoting a healthier sleeping environment. Additionally, hemp is one of the most sustainable natural fibres, growing rapidly with little environmental impact.

FLAX

Flax is an exceptionally strong and durable fibre. It naturally resists moisture, helping to keep our mattresses fresh and dry. As a sustainable crop that requires minimal water, flax is a perfect alternative to cotton.

SILK

The strongest of the natural fibres, with excellent moisture absorbing qualities making it perfect for regulating body temperature.

VISCOSE

Often thought of as a man-made fibre, viscose is a cellulose derived from the wood pulp of eucalyptus, beech and pine trees. Viscose is a versatile and lightweight fibre that is breathable and highly absorbent, helping you have a fresh night's sleep.

ORGANIC COTTON

Soft and durable, cotton has strong moisture-wicking properties. Organic cotton is grown without synthetic pesticides or fertilisers, using methods that support healthier soils and reduced water usage.

THE SPRINGS THAT MAKE THE DIFFERENCE

Innovation is at the core of every Harrington & Abbott mattress. Each spring system is expertly engineered to move with the body, offering precise support, exceptional comfort and long-lasting durability - all with sustainability in mind.

CORTEC™ QUAD SPRINGS

Cortec™ Quad is a pioneering glue-free spring system, designed for comfort and recyclability. Each spring is individually welded to move independently, providing responsive contouring support that adapts perfectly to your body for a more restful night's sleep.

HD MICRO SPRINGS

HD Micro Springs add layers of delicate, responsive comfort. With thousands of tiny springs in each layer, they cradle the body for a luxuriously soft feel - delivering the plush comfort of foam, with the breathability and durability of springs.

Harrington & Abbott

SEASONAL TURN

MATTRESSES

The natural properties of the luxurious fillings create two different surfaces to every seasonal turn mattress. With Warm for Winter wool blends on one sleeping surface and Cool for Summer cotton blends on the other, Harrington & Abbott Seasonal Turn mattresses ensure you are exactly the right temperature all year round.

Cortec™ Quad Springs
Supportive, turnable springs offer consistent comfort and extend mattress life.

HD Micro Springs
Provide extra support and act as a soft filling for added comfort.

Seasonal Comfort
Flip your mattress to adjust temperature and breathability for the seasons.

Dual-Sided Luxury
Two sleeping surfaces with natural fillings, offering warm and cool comfort options.

AURORA

Indulge in the ultimate sleep experience with the flagship mattress of the range, a masterpiece of British craftsmanship designed to cradle your body in perfect harmony. Featuring an extraordinary 30,768 responsive springs, it adapts effortlessly to every curve and movement, relieving pressure, supporting spinal alignment and ensuring uninterrupted, restorative sleep night after night.

Sumptuous layers of Cashmere, Silk and British wools create a lavishly soft, naturally breathable surface that regulates temperature and moisture, keeping you perfectly comfortable through every season. The chemical-free cover is gentle on skin and naturally hypoallergenic - so you can rest with total peace of mind.

With the choice of Medium or Firm, and the unique option to customise each side of the mattress to a different tension, every sleeper can enjoy a personalised, perfectly tailored sleep experience.

From the first night, you'll feel the difference - waking refreshed, restored and cradled in the serene comfort of pure British luxury. Sleep, perfected.

LUNA

Discover the art of indulgent sleep with the Luna mattress, meticulously crafted for those who demand true luxury.

Featuring 20,768 innovative springs, including HD Micro Springs paired with the advanced Cortec™ Quad Spring System, it delivers precise body contouring and exceptional support, easing pressure points and promoting perfect spinal alignment for deeper, uninterrupted rest.

Sumptuous layers of Wool, Hemp, Flax and Mohair, combined with British Wool and Viscose fibres, create a naturally breathable, luxuriously soft surface that regulates temperature and moisture, keeping you perfectly comfortable through every season. The gentle, chemical-free cover ensures the mattress is kind to skin, hypoallergenic, and part of a cleaner, healthier sleep environment.

Available in Medium or Firm, with the unique option to customise each side to a different tension, the Luna offers a truly personalised sleep experience - ideal for shared beds or individual comfort preferences. Every night becomes a supremely indulgent escape, where meticulous craftsmanship, refined materials and tailored support combine to leave you feeling refreshed, restored and enveloped in serene British luxury.

NEVEAH

Indulge in the ultimate cloud-like sleep experience with the Neveah mattress, designed for those who cherish sumptuous softness. Featuring 13,768 innovative springs, including HD Micro Springs layered with the advanced Cortec™ Quad Spring System, it gently cradles every curve, providing exceptional body contouring while relieving pressure and supporting spinal alignment for truly uninterrupted sleep.

Luxurious layers of Cotton, Hemp and Flax, combined with British Wool and Viscose fibres, create a breathable, naturally soft surface that keeps you perfectly cool and comfortable throughout the night. Finished with a chemical-free cover that is gentle on skin, hypoallergenic and contributes to a cleaner, healthier sleep environment.

Perfect for those who love an indulgently plush feel, the Neveah delivers deep pressure relief without compromising essential support. Soft, breathable and exquisitely finished, it transforms every night into a serene, restorative escape - a sanctuary of pure comfort and luxury.

HARMONIA

Experience supportive luxury with the Harmonia mattress, meticulously engineered for sleepers who demand exceptional firmness and refined craftsmanship. Featuring 5,768 innovative springs, including HD 2500 Micro Springs layered with the advanced Cortec™ Quad Spring System, it delivers precise, orthopaedic-level support that cradles your body while maintaining a solid, stable feel - perfect for promoting healthy spinal alignment and even weight distribution throughout the night.

Natural layers of Cotton, Hemp, and Flax provide strength, breathability and resilience, while British Wool and Viscose fibres add a touch of sumptuous softness, balancing firmness with refined comfort.

Finished with a gentle, chemical-free cover, that is kind to skin and naturally hypoallergenic.

Ideal for sleepers who value posture support without sacrificing comfort, the Harmonia combines enduring strength, breathable luxury, and exquisite craftsmanship. Every night becomes an experience of restorative rest, where firmness meets refinement and sleep fulfilment is elevated.

ASTERIA

Experience the perfect balance of support and natural comfort with the Asteria mattress, thoughtfully designed for sleepers who appreciate balanced, medium support. Featuring 4,768 innovative springs, including HD 2500 Micro Springs layered with the advanced Cortec™ Quad Spring System, it adapts seamlessly to your body, providing precise pressure relief and promoting healthy spinal alignment for uninterrupted, restorative sleep.

Luxurious layers of British Wool, Viscose, Wool, Hemp and Flax create a soft, breathable and naturally cooling surface, regulating temperature and moisture to keep you comfortable throughout the night. Finished with a beautiful chemical-free cover, that is gentle on skin, hypoallergenic and part of a cleaner, healthier sleep environment.

Durable, breathable and exquisitely crafted, the Asteria offers a naturally indulgent sleep experience, combining tailored support with sumptuous softness. Every night becomes a refreshing, restorative escape - pure comfort, made naturally.

THE LUXURY OF CHOICE
