

Sustainable sleep
protecting our earth and oceans

More needs to be done. We need to find a better way.

Better for us, better for you and better for the planet.

VioSLEEP
lies at the heart of sustainable sleep.

All mattresses in this range are **chemical-free**, offering 100% natural sleeping surfaces. This also means all mattresses are naturally fire-retardant.

VioSLEEP mattresses are **100% recyclable**.

After processing the recycled materials can be **re-used, re-purposed or upcycled**.

Native woods and trees are one of the best ways to tackle the climate crisis. Through the sale of **VioSLEEP** mattresses, the **Dream Trees** initiative are pledging to **plant more trees** in the ground by contributing a tree for every one sold.

Did you know that over **8 million pieces of plastic** pollution find their way into our ocean daily. For every **VioSLEEP** mattress **200 plastic bottles** are re-purposed diverting them from landfill.
